La Grippe Coughs -

Stop those ugly hard la grippe coughs that weaken the system and lower the vital resistance to more serious ailments, by taking Foley's Honey and Tar. Some victims of la grippe never fully recover the health of the lungs and the cough that "hangs on" is the cough that threatens.

Foley's Honey and Tar helps from the very first dose. It is a soothing, healing coating on the inflamed surfaces, relieves the tightness and soreness, raises phlegm easily, and gives comforting feeling of ease and warmth. It is also good for bronchitis, coughs, colds, some night coughs, tickling throat and hoarseness. Do not accept a substitute.

"I had an attack of pneumonia, both lungs being involved. After recovering somewhat, my lungs failed to clear up, and I suffered severe pain from congestion. I took one bottle of Foley's Honey and Tar, and it took all the soreness away and cleared my lungs of the congestion." Yours truly, J. D. Esterkin, Winston, Ga.

I was sick in bed with La Grippe and had a very bad cough. I took Foley's Honey and Tar and it helped me so much. I kept on and it stopped my cough and I got better. So now I am around the house again. I am 75 years old. Mrs. Mary Kinsley, Spokane, Washington.
